

Upper Smoky Hill Regional Advisory Committee Priority Goal #1 Action Plan

Priority Goal #1: By 2025, reduce irrigation use by 25% based on recent average pumping history per water right. Allow water right transfers and other flexibilities as long as a net reduction is achieved. In addition, annual water use for all irrigation users will not exceed net irrigation requirement for that county.

Action Steps

- ❖ Support GMD No. 1 in formulating another LEMA plan.
- ❖ Work with KDA and GMD No. 1 in education of water technology farms.
- ❖ Support KDA in education of WCAs
