Regional Advisory Committee Regional Goal Action Plans

As the next step in the Vision and Water Plan development, action plans for each of the regional goals are being developed. At the KWA meeting, you will hear from RAC chairs, or their designees, on action plans that the RAC has taken approved. This is an important step in the process and represents significant effort on the parts of these local volunteers. Review and approval of locally developed plans to address water resource issues is a primary responsibility of the KWA. You will be asked to approve action plans you believe address the goals and are appropriate. These action plans will ultimately be reflected in the Kansas Water Plan.

Attached to this memo are completed Action Plans for 10 of the regions for review and approval by the Kansas Water Authority. The rest of the Action Plans will be presented at the October KWA meeting for approval. In addition, we plan to highlight these approved Action Plans at the Governor's Conference on November 14-15, 2016 in Manhattan, Kansas.

The following Action Plans are attached to this memo for your review:

- Solomon-Republican RAC Action Plans for Goals 1-4
- Upper Arkansas RAC Action Plans for Goals 1-4
